

PRODUCT DATA SHEET

ROPENET

Nylon 8/12 Strand Braided Rope

Ship tie lines are pre-spliced with 6' canvas eyes on each end

Nylon Rope has high elongation when compared to other synthetic ropes, and also it has high energy absorption under shock and good abrasion resistance.

It is perfect for mooring lines, towing slings, commercial fishing, utility rope, leisure boat, and sailing.

Features:

- Easy splicing
- Good wear resistance
- Excellent shock absorption
- UV resistance

Applications:

- Mooring lines, Shock lines
- Fishinglines
