

Polyester 3 Strands Twisted Rope

Three strand twisted 100% polyester fiber

Polyester ropes offer a low stretch & resist most chemicals, rot, and mildew, including acids which can cause damage to nylon rope. With good abrasion and excellent U.V resistance Polyester won't lose strength when wet unlike nylon will.

Features:

Low stretch
Excellent U.V. Resistant
Resists most chemicals, rot & mildew, wet
Excellent resistance to acids and alkalis
Sinks in water

Applications:

Mooring, Anchor, Fender & Towing
Lines
Marine rigging
Winch lines
